A GLOOMY OUT-LOOK.

The cottom worm has put in his appearance in Hale and Green Counties, Alabama.

The Marion, Alabama, Commonwealth is informed that the cotton caterpillar is doing immense damage in the rich canebrakes of Perry County.

The all-devouring conqueror worm has appeared in the Red River lands in Louisiana, and is ruining the cotton crops of that sec-

tion.

The cotten caterpillar is said by the Eufaula, Alabama. Thres to be doing much damage in the vicinity of Eufaula. The Times says that farms which a few days ago promised fine crops are now completely riddled and will make next to nothing.

The drought in Marion has prevailed in a large section of the county. The crops—which were pronounced very good in the whole of the northern portion of the county to within four miles of Marion two weeks ago—have been seriously damaged, and we

to within four miles of Marion two weeks ago—have been seriously damaged, and we find it extends to and beyond adjoining counties to a more alarming extent.

The Macon Telegraph of Tuesday says: "The sight and sound of the steadily falling rain, nearly all day yesterday, was neither musken nor pleasant to farmers. Better weather for the caterpillar than has prevailed in this section for four days, they could not desire. It is telling on the cotton too senecially in South. telling on the cotion, too, especially in South-western Georgia. The largest planter in that section told us yesterday that there was scarce-ly a farm in the countles of Worth, Dougherty. Baker, Lee, Mitchell, and Miller, upon which the worms were not to be tousd, and that they were rapidly webbing up. Such weather as prevails now just suits them, and our informant expressed the gravest apprehensions as mant expressed the gravest apprehensions as to the result. He had, some ten days since, ordered bagging for the number of bales of cotton he thought his prospects warranted him in thinking he would make, but he has since telegraphed, reducing his order just one-half.

A German View of the Indemnity Pay-

The following, which we trauslate in a condensed form from the Hamburgh Borsenhalle, will be found of interest, as giving the views of one of the ablest German journals upon the effects of the enormous indemnity receipts of Germany from France: it will be seen that the German advantages are not without Impor-

tant drawbacks: The first two milliards have raised the tide circulation in our midst to spring flood; but the speculative activity for the coundation of new enterprises was so great that the coming milliards are looked forward to by our exchanges with looked forward to by our exchanges with much eagerness. The effect of the first two milliards the stock list shows. The enhanced value of most necessaries of life and of all productions of industry, and the natural tendency to make up the higher cost of living by speculation on the stock exchange are unwelcome results. The new milliards will be added to the money market in such a manuer and at such intervals as to bring about in a lessened degree the running into high tide, as well as the depreciation of the circulating medium. the depreciation of the circulating medium. The first indemnity funds have encouraged social inconveniences, such as the intense dearth of dwellings, and the strikes, so injurious to industry; and certainly we do not wish either to increase. Thus far, the coming millards have exercised a deleterious effect on the foreign exchanges. People prefer to rid themselves of the old securities they hold; and such stocks decline. It is not the time of the year alone which causes the prevailing duliness; but the reflection that ere we receive the vast additional amounts of the inreceive the vast additional amounts of the indemnity these amounts are withdrawn from other quarters, with consequent inconve-nience, and the eventualities which thus await the exchange market it would be diffiawait the exchange market it would be diffi-cult to duly appreciate at this early stage. Although our capitalists may largely par-ticipate in the new French loan, they will only do so as long as the excitement lasts; and, gradually, the paper thus created will wend its way back to France as the French funds have at no time gained a firm and permanent foothold on any of the German or other foreign markets. In the meantime, our financial press is agitating against the eager-ness of German financiers now at Paris to obtain a large share in the French load, fearing as these papers do that attention will be altogether diverted from our own local securities. But then our public has been so spoiled in expecting, as a matter of course, large dividends from the German banks, that the latter, so to have been compelled to launch out operations on a large scale, and y are now under the fatal necessity be continually scanning the horizon on this side and across the seas for some new scheme that money may be made by. While at the time of the first French operations to raise the money for paying us, German financlers have lent no very eager assistance. The cosmopolitan feeling of good neighborhood has obliterated all nesitation now, and we predict a liberal participation on the part of German capitalists.

DRUGS AND MEDICINES, WHOLESALE AND RETAIL.

DR. U. BAER, No. 131 MEETING STREET, CHARLESTON, S. C., Invites attention to the following Preparations of his own Manufacture: THE CELEBRATED GERMAN SOOTHING

CORDIAL, FOR INFANTS TEETHING.

ORDIAL, FOR INFANTS TEETHING.

This is the best Medicine for Infants and young Children ever offered to the public. It is carefully prepared from the best Drugs, according to a prescription furnished by a distinguished German Physician of large and successful practice, and has been tried and approved by many of our bost physicians. It is specially adapted to the diseases incident to childhood during the trying period of Teething, and recommends itself for the cure of Diarrheas, Dysentery, Colic, Griping in the Bowels, Summer Jomplaint, &c. It contains no Anodyne or other injurious Drug, and should, therefore, be preferred to the Soothing Syrups that now flood the market, which are known to contain Oplum, and are, therefore, more or less injurious. Thousands of children are murdered annually by Soothing Syrups; in some cases, this fact has been published in the newspapers, where the physician in attendance so stated in his death certificate. In the numerous other cases, where the innocents are murdered by this modern Herod of the Nursery, the cause is laid to a thousand other causes—to all but the right one.

Mothers, bear this in mind, and use the German Soothing Cordial, which is safe, efficient and satisfactory. Do not fall to try a bottle at once! The Soothing Cordial is also an excellent Tonic, admirably adapted in cases of Debitity—giving tone to the system, recuperating the strength, and restoring the appetite.

Price 26 cents a bottle.

toring the appet EXCELSIOR HAIR TONIC. This is no Dye, but a Tonic and Hair bressing—keeps the scalp clean, and promotes the growth of the Hair; contains no Nitrate of Silver, in Sulphur, no Sugar of Lead, and no other injurious Drug. Try it. Only 50 cents a bottle.
